ON AUGUST 18**

**Case Against Southeastern Tariff
Association Taken Under
Advisement.**

[Special to The Times-Dispatch.]
Newport News, Va., June 18.—Argument in the case of officers and members of the Southeastern Tariff Association, charged with unlawfully conspiring to control rates for fire insurance in Newport News, was concluded before Justice Brown in the Police Court to-night at 10:30 o'clock. The argument consumed two entire days.

O. D. Batchelor closed for the defense to-day in three and one-half hours, and announced that he will render his decision on June 29.

All of the defendants have departed for their homes, their bonds being continued for their reappearance on the 29th. Innumerable authorities were cited by both sides in the closing argument.

WRECK BLOCKS TRAFFIC.

Split Rail on Southern Causes Disaster to Freight Train.
[Special to The Times-Dispatch.]
Raleigh, N. C., June 18.—While running twenty-five miles an hour, through freight train No. 176, on the Southern Railway from Greensboro to Selma, was derailed beyond Walnut Creek Bridge, two miles east of Raleigh, about noon, sixteen of the forty cars in the train being piled up in a complete mass of wreckage. A split rail caused the wreck.

Conductor Lloyd was slightly injured in jumping from the engine. Two hundred yards of track were torn up. It will be some time Sunday morning before the track is cleared sufficiently to admit of resumption of traffic.

Eloping Couples Married.
[Special to The Times-Dispatch.]
Bristol, Va., June 18.—A double marriage was solemnized at the Bristol Gretna Green to-day, when Rev. A. H. Burroughs performed the ceremony for the following young couples: from Salisbury, Charles E. Carter and Miss Lizzie Lee Lawrence; J. Thomas Cruey and Miss Rosa Fields.

Southern Depot Robbed.
[Special to The Times-Dispatch.]
Memphis, Tenn., June 18.—Thieves entered the Southern depot here last night, forced open the inner door of the safe and took all the money therein, about \$5, and a number of railway papers. They made good their escape and no trace of them has been found.

**Miss Ellen Glasgow Tells Reporter That She Has
to Come Home for Inspiration—Can't
Do Much Abroad.**

Miss Ellen Glasgow, the American novelist, arrived here the other day from Europe, and after three days' stay at the Hotel Seville returned to her home in Richmond, says the New York Sun of yesterday.

"I cannot tell whether or not it is some subconscious personality at work or some other psychological reason that makes it impossible for me to write outside of Richmond," she said on the eve of her departure, "but the fact remains that I can write only there and nowhere else. So I am going back to finish my novel, which I worked on for a year and locked up in a storage vault when I came away. Now I shall go back and take it out in the hope of finishing it by next spring. But I cannot tell when it will be ready. I can do lots of things in a hurry, but writing a novel is not one of them, and I never tried to force myself to finish any book before. I feel that the time for its completion has arrived. If I can finish one every two years I am very well satisfied."

"My new book is to deal with conditions in Virginia during the last fifteen years and will have no particular thesis. An impression prevails here that there are in the South, especially in Virginia, only the aristocratic families and the negroes, while in reality we also possess that class that is sometimes called the middle class here and in England and in France the bourgeoisie, that is responsible for most that is good in our and every other civilization. I am intensely democratic in feeling, and it is this sentiment of Virginia life that I have found the inspiration for my next novel."

Why She Left Naples.
Miss Glasgow went abroad in the early spring with her married sister, Mrs. Cary McCormick, of Richmond, intending to visit friends in Constantinople, but her sister proved to be too delicate to take the long journey, so the two went down to Naples from Cherbourg. Then they went to the north of Italy and spent a month visiting Orvieto, Siena and the other hill towns. Then they went to the monastery of Aversa, which is becoming such a popular pilgrimage for Americans.

"When I was in Naples several years ago," Miss Glasgow said, "I could only stay there three days, as the treatment of the horses in the streets was so horrible that I could not bear to see it. This time, however, I found great improvement in that particular. There is much more consideration shown to the animals and for the first time I found pleasure in stopping there. It is an interesting, active place, but to my mind possesses none of the fascination of Florence, which is the place I love above all others in Italy."

**HAIR REMOVERS
ARE DANGEROUS**

Physicians Say: "Don't Use Poisonous Depilatories."

The extravagant claims recently made by unscrupulous manufacturers of hair removers in sensational advertisements unquestionably justify physicians in cautioning the public against the use of this class of depilatories. How many people have been injured by the use of these dangerous preparations with consequent injury to themselves, cannot be estimated, but only suggested. The hair is not removed, but is driven into the skin in the form of cream pastes, which are to be spread upon the skin to remain there for several days. These contain Sulphide of Barium, an insoluble chemical, which cannot be dissolved, therefore cannot be absorbed by the skin. The hair is driven into the skin until they dry and cake and then lift off with a knife as proof positive that they are not absorbed. If they are, why do they still remain on the skin? The most they can possibly do is to remove the surface hair, which in consequence will regrow stronger and thicker after each removal.

There is only one logical and scientific way to remove hair, and that is by means of a liquid containing soluble ingredients which can be absorbed by the skin. De Miraclo, known all the world over as the only real superior hair remover, is just such a preparation. It is easily absorbed, and after you have used it you will note there is nothing left on the skin. It leaves the skin free from irritation and what is more to the point, it is absolutely non-poisonous, therefore it will not produce eczema or blood poisoning. Remember, no matter what claims are made to the contrary, no poisonous, pasty compound or other worthless concoction can reach the hair root and remove it.

Beware of the fake free advertisers and others. Don't be deceived by them. Better take a doctor's advice. De Miraclo is sold by Cohen Co. We will send you a 32-page booklet, containing full information concerning this remarkable treatment, as well as testimonials of prominent physicians, surgeons, dermatologists, medical journals and the highest medical authorities. You should read this booklet before you try anything. Write to the De Miraclo Chemical Co., Dept. 33, 1836 Park Avenue, New York, sending you want this booklet, and it will be mailed, sealed, at once.

Victrola

Tone

That's where the Victrola is pre-eminent.

You might be able to build a cabinet that outwardly would resemble a Victrola. You might even copy the inside construction and details, if they were not protected by patents. But there is no copying the superior Victrola tone-quality.

That represents years of patient experiment—with various woods, with different proportions, with numerous vibratory surfaces—and it is simply astonishing how slight a variation in size, in shape, in position, produces discord instead of harmony.

No, the Victrola tone can't be equaled! Even though the eye could take in every detail of construction, there is still that same indescribable "something" which makes the Stradivarius supreme among violins, which gives to the Victrola such a wonderfully sweet, clear and mellow tone as was never known before.

**PLAYGROUNDS TO
OPEN TO-MORROW**

Big Celebration at William Byrd
Park, With an Address by
the Mayor.

Municipal playgrounds will be formally opened to-morrow afternoon at 4 o'clock in William Byrd Park. Mayor D. C. Richardson will deliver the principal address. Dr. F. M. Reade, who recently went as a delegate to the Playground Convention in Rochester, N. Y., representing the Civic Improvement League, will also speak.

Thousands of children are expected to take advantage of this opportunity to enjoy the pure air and sunshine and romp and play in the big outdoor playgrounds. The big outdoor playgrounds have been made by the Federation of Mothers' Clubs and the Civic Improvement League to see that the little ones have a grand time. There will be music by the Richmond Light Infantry Blues' Band. National airs will be sung by the children, led by Miss Adele Overby, accompanied by the Blues' Band. After the exercises are over the children will be turned loose in the park.

Athletic contests will be held under the direction of Physical Director Reithard, of the Central Young Men's Christian Association. The baseball game will begin at 5 o'clock.

The Civic Improvement League and the Federation of Mothers' Clubs have been looking forward to the inauguration of municipal playgrounds for a long time. All those interested in the work say that it means a new life for the children, especially those who attend schools. They will have a place to go and indulge in clean, healthful exercise, instead of stealing away to a back lot and getting into mischief.

Parents are urged by the Civic League and Mothers' Clubs to go with their children to Byrd Park to-morrow. Children whose parents or guardians cannot escort them are expected to assemble at their respective playgrounds at 4 o'clock to make the start in charge of the monitor.

The musical program of the Blues follows:
